# INTRODUCTION.

In again presenting an illustrated Catalogue to my patrons and the sporting classes of the American people in general, I do so much encouraged by the results of a successful business experience among them—a feeling increased by a consciousness of the fact that this success has been induced by honorable and fair dealings with all, and by selling the best goods for the lowest prices. In attestation of this, I simply say that I am successfully competing with the best New York houses in the matter of furnishing outfits for many of the Professional and Amateur Base-Ball Clubs of the country, that this speciality of my business is rapidly increasing among them, and that I have just supplied, for the second time, the annual outfit for the best professional club of New York City, and one of the most celebrated in America.

All that I have done for the convenience and satisfaction of my customers in the past I shall again do for them in the future, and will always keep the lead, as I have heretofore done, in reducing my prices simultaneously with the reduction of the marketable value of each or any of the materials from which my various assortments of Sporting and other Goods are manufactured.

Since the issuing of my last illustrated Catalogue, owing to an inability to obtain first-class goods at prices that would enable me to sell them to the public at moderate rates, I have established my own factory, and CAN NOW TRULY SAY THAT I MANUFACTURE MOST OF THE BASE-BALL, FISHING, AND GYMNASIUM GOODS CONTAINED IN THIS CATALOGUE. This alone gives me superior advantages over any other American house; and taken in connection with the fact that I have been compelled to add to my salesrooms the two stores recently adjoining my premises, in order to accommodate the large additions I am constantly making to my stock, warrants me in saying to all that I am prepared to make better bargains with them than they can secure elsewhere, and that I am determined to be surpassed by no house in this line of business in the country.

Congratulating the American people on the increasing popularity of out-door sports among them, on account of its tendency to produce better *physiques* in our youth, and commending this Catalogue to their favorable consideration, I subscribe myself, with great respect.

Their Obedient and Attentive Servant,

JAMES F. MARSTERS,

Nos. 51, 53, and 55 Court St., Brooklyn.

# IMPORTANT.

COMPARE THE PRICES IN THIS CATALOGUE WITH THOSE OF ANY OTHER CATALOGUE YOU MAY RECEIVE, and recollect that these are MY PRICES FOR FIRST-CLASS GOODS.

All questions for information regarding my goods addressed to me personally or by letter will be courteously and properly answered.

All estimates desired will be cheerfully given.

All orders for goods WITHOUT THE CASH will be promptly filled and sent C. O. D. at my lowest rates.

All orders for goods WITH THE CASH will be promptly filled and forwarded at a REDUCTION OF FIVE PER CENT. from my lowest rates.

All orders FOR SAMPLES will be promptly filled at the WHOLESALE RATES OR DOZEN PRICES.

All orders for goods or samples of goods, or for any single article, must state the designated number for the same in this Catalogue, if it is numbered; and if it is not numbered, use the exact descriptive language contained herein for the same; when the desired article or thing is not described in this Catalogue, please use the plainest possible language in ordering, so as to avoid mistakes.

All necessary directions for self-measurement in ordering goods for personal wear will be found in this book under the sub-headings respectively of "Shirts" and "Pants," of the departmental head of "Base-Ball Goods."

All orders for Caps or Hats, and Shoes or Stockings, should distinctly give the size or number worn.

Always consult both the illustrated pages and the descriptive matter, and be sure you have the numbers, etc., correct before ordering.

All money remitted to me should be sent by Postal Money Order; and where this is not possible, by Registered Letter. Postmasters are required by law to register letters when requested to do so.

All orders should be plainly addressed to

JAMES F. MARSTERS,

Nos. 51, 53, and 55 Court St., Brooklyn.

# ARCHERY GOODS.

The revival a few years since in England of the delightful pastime of Archery from the list of really contributive pleasures of past ages has led to its introduction in America, where, through its constantly increasing popularity, it is certainly destined to occupy within a brief period a prominent position among the favorite out-door sports of our people. To continually keep pace with the demands of the pleasure-loving public—and whenever it is possible, to anticipate them—has always been the object of my ambition. I have therefore added to my large stock of Sporting Goods a complete assortment of every thing, both domestic and imported, pertaining to Archery, which I respectfully offer at prices that will compare favorably with those of any other similar establishment in this country. Bear in mind that these and all other goods mentioned in this Catalogue, or contained in my store, are the best of each of their respective kinds and qualities manufactured, and that I will send them C. O. D. to any point in the United States reached by express.

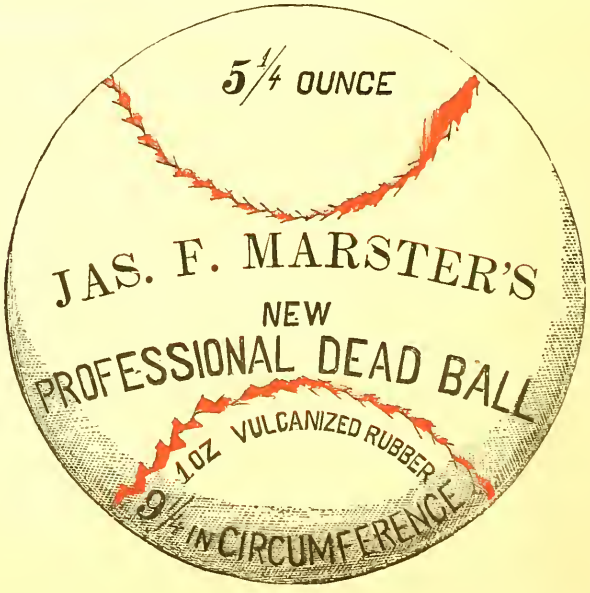
J. F. Marsters' Superior Sail Canvas Base-Ball Bat Bags.



# BASE-BALL GOODS.

## Base Balls.

I take pleasure in offering to ball players my excellent line of Base Balls. I have made a lasting reputation on these goods by keeping the quality superior to any in the market. The growing popularity of my new Professional Dead Balls is due to the uniform manner in which every ball is made, viz., all Yarn, 1 ounce Moulded Rubber, and guaranteed to the requirements of the Convention.

On account of the many worthless imitations of Dead Balls with which the market is now flooded, owing to the increasing popularity of our National Game of Base Ball, I stamp all my brand with my name in full on each ball, and if any of them purchased direct from me are not as I represent them, I will refund the money or exchange the goods at the discretion of the purchasers.

**Remember that I am the Sole Agent of the "Mahn Ball" (usd by the Boston and other Professional Clubs) for the Cities of New York and Brooklyn.**

Being a manufacturer of most of the articles mentioned in the following list, I offer them to clubs and dealers, believing that my low prices for the superior grade of goods here presented, will secure your patronage.

**NOTE.—Orders for SAMPLES of a single article or pair, will be filled at the Wholesale Rates or Dozen Prices. Orders accompanied with the Cash will be filled at 5 per cent. below the Catalogue Prices.**

In ordering, order by numbers, as indicated in this list, and never neglect to send sizes of Shoes, Caps, Belts, &c.

# Base-Ball Regulation Bats.

My assortment of Bats are the largest in the country, as my new and improved machinery (introduced into my factory for this purpose) enables me to manufacture my Bats from the most approved models and of any design at lower rates than can be obtained elsewhere. Clubs, in ordering selected Bats from any of the following styles, may rely on securing the very best in the market. In ordering, order by numbers, and be careful to state what lengths are desired, as Men's or Regulation Bats are 36, 38, and 40 inches long, and Boys' Bats are from 24 to 34 inches long.

The above illustration, representing my new Prize Ball and Case, is designed for presentation to such Base-Ball or Cricket Players as have won especial distinction or merit on the field. It is also intended, as the title implies, as a prize for the winning club in cases of special contest. Both the Ball and Case are made in the most admirable and substantial manner, so that their intrinsic value alone are sufficient to make them worthy objects of emulation, outside of those higher and nobler motives which induce the desire for superiority among men.

# Imported Worsted Web Belts.

These Belts have become extremely popular among ball players, gymnasts, and the boating fraternity. where it is necessary that nothing should impede the motion of the body in the various attitudes. This has been the objection to heavy leather belts, and thus my own are preferable. These Belts are made of the best material, 2½ inches wide, and any length to suit size of waist. I now have in stock the following thirteen different styles; but any designs not illustrated in this Catalogue will be furnished or made to order on the shortest notice and at the lowest figure.

# CRICKET GOODS.

The events of the past year resulting in repeated triumphs of the American Base-Ball Clubs over the best English Cricket Clubs in the national game of England, during the exhibition tour of the Boston and Athletic Clubs in that country, bids fair to make the game of Cricket much more popular in America than it has heretofore been. Indeed, there is good reason to believe that this game will be played by some of our professional clubs quite often this summer. Acting upon my belief in the views I have above expressed, I take great pleasure in saying to my friends and the public that I have recently made extensive additions to my large stock of the best Imported English goods. These additions have been carefully selected from the salesrooms of the leading English manufacturers, and include all the latest improvements.

In illustrating on this page the appearance of a few of the principal articles of Cricket goods now used in England, I will simply add that the greatest attention has been bestowed in the manufacture of the Buck Leg Guards; they are stuffed with the finest cotton, and made as light as possible, so as not to impede the motions of the players while running the wickets; the Wicket-keeping Gauntlets are made from the best white buckskin and yellow doe leather, on the same principle as those used by the most celebrated English Wicket Keepers of the present time; and the Bats are made of superior English Willow, Wound, Patent Repercussive, Double Malacca Cane, Superior Treble, Dovetailed, etc., Handles.

# FISHING RODS, TACKLE, ETC.

Being one of the largest manufacturers of Fishing Rods in the United States, and an extensive importer of Fishing Tackle, I am enabled to offer goods at cheaper retail prices than can probably be obtained in any other city in the Union. I here append a Price-List of many articles belonging to this department of sport; but it is proper that I should say it embraces only a small portion of the large and select stock of Fishing Goods to be found at all times in my store. I will also take occasion to say, that, having long made this line of business one of my specialities, and being an experienced practical fisherman myself, I am fully acquainted with the wants of those who enjoy fishing. Therefore, in ordering, state in what locality you desire the tackle for, and I will most likely be the best judge. In ordering rods, say whether you want a rod for bait or fly fishing, for trout, bass, perch, pickerel, or salt-water fishing.

# AMMUNITION AND ACCOUTREMENTS.

To that class of the sportsmen of America who confine their pursuit of pleasure almost entirely to the gun, it is hardly necessary at this late day to present my claims to an intimate and extensive knowledge of all their requirements, as I feel quite assured that a business acquaintance with them of many years has sufficiently demonstrated the fact that I have constantly on hand at Nos. 51, 53, and 55 Court street, Brooklyn, the best and most carefully selected stock of Guns, Pistols, Accoutrements, Ammunition, etc., to be found in this country, at prices that defy competition. To enumerate every thing I keep in this line would increase the dimensions of this Catalogue to too great a size, and I therefore content myself with giving only a partial list of the goods contained in this department of sport.

**Snipe Shooting at the South.**

Below I merely make general mention of my large and extensive assortment of standard American and English Ammunition and Accoutrements. Although not classified in some instances with prices, yet, upon ordering, you will find that these articles are exceedingly cheap.

## Sporting Ammunition.

### Powder and Shot, Caps, Cartridges, and Gun Wadding.

A full line of the best English and American Powders—Dupont's, Hazzard's, etc.

A complete assortment of Tatham Brothers' Celebrated American Drop Shot.

# GYMNASIUM GOODS.

To this branch of my business I have devoted many years of personal attention, and therefore believe that I am fully conversant with the wants of those who use this class of goods. Having been long convinced, as the result of my knowledge and experience, that the different grades of Gymnasium Goods generally offered to the trade were too inferior for the exorbitant prices demanded for them, I at last resolved to manufacture my own stock, and am consequently enabled to present to the public a superior line of goods at moderate prices, a list of which I give in these pages, embracing everything known to the lovers of Athletic Sports, and which I will guarantee to be just as I represent. Any of these goods will be sent C. O. D. to any part of the United States.

## J. F. Marsters' Excelsior Home Gymnasium.

**With Trapeze, Swinging Rings, Ropes, etc., Complete.**

J. F. Marsters' Excelsior Home Gymnasium, as illustrated above, affords convenient, agreeable, and healthful exercise to all, as it can be easily put up in any room or parlor without injury to the ceiling. Its use is especially recommended to the debilitated, and to persons engaged in sedentary occupations, as well as to parents seeking to make home attractive to their children. The prices are as follows:

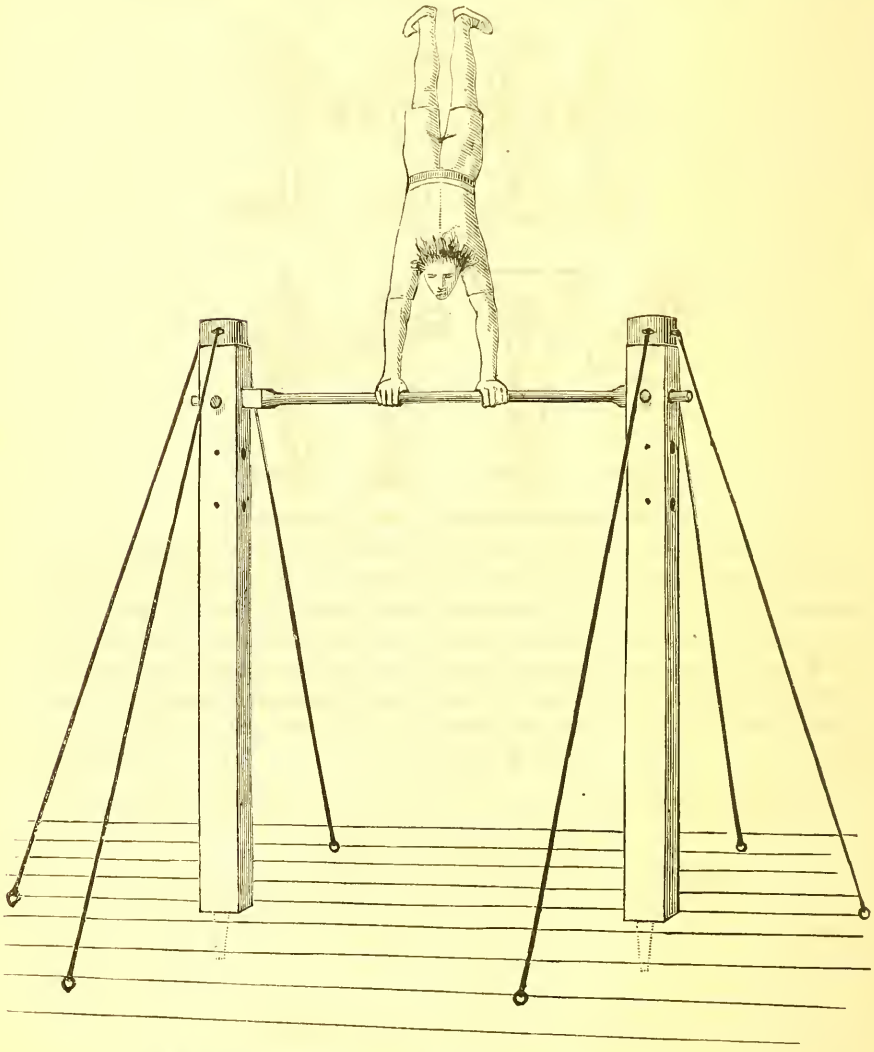
# J. F. Marsters' Improved Portable Horizontal Bar.

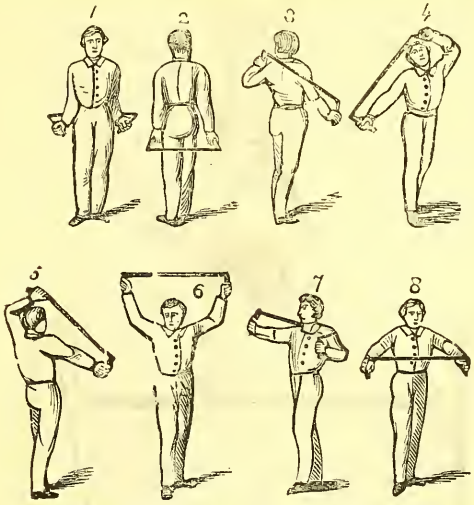


**With Fixtures, complete, and ready for immediate use.**

My Improved Bar, as illustrated in the above engraving, can be put up in any room or parlor in fifteen or twenty minutes, and can also be easily transferred and arranged for out-door use. It is manufactured from the most suitable wood, and is warranted to give satisfaction. Especially recommended to students at college and to associations or clubs, where its use and expense can be alike enjoyed and borne amongst a number. Uprights 10 feet high, and 4 square inches thick, arranged for different heights. Bar 6 feet in length. Price, complete, $12.

I also make another size, much more elaborate than the above. Price, $25.

# Barnett's Patent Parlor Gymnasium.



**The World-renowned Chest Expander.**

The advantages of the Barnett's Parlor Gymnasium consists in its excellent combination of utility and amusement—a fact made obvious by its adoption in the Public Schools of New York City. The illustrations above represent several of the different forms of exercise especially belonging to the uses of this Gymnasium. For the young, old and middle-aged; for the narrow-chested; for the round-shouldered; for spinal distortions; for dyspeptics; for ladies sitting at the sewing-machine; and to all persons engaged in sedentary occupations, it is invaluable. # Kehoe's Improved Striking Bag.

**An Excellent Method of Morning or Evening Exercise.**

The Improved Striking Bag provides an agreeable and strengthening exercise for those persons whose physical condition prevents them from practicing with the Dumb Bells, Indian Clubs, etc., being particularly intended to strengthen the wrists, arms, shoulders, back, loins, and the muscles of the abdomen, and will learn the striker how to deal a strong blow. It is of inestimable value to dyspeptics and persons of sedentary habits. A few minutes' exercise in the morning will quicken the circulation of the blood, and impart a healthy glow to the whole body. There is no danger of barking or scraping the knuckles, as the fist does not come in contact with the sand bag, which is completely enveloped by another bag lined with four inches of prepared sponge or curled hair, and covered with English Buck, Buff Leather, or Canvas. The prices are as follows, and include Rings and Hooks, complete:

| | | | |

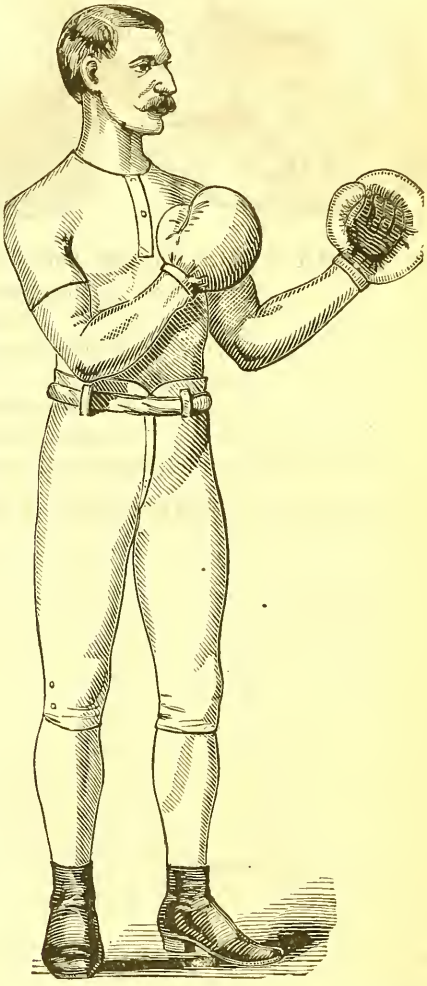
# Marsters' Standard Hand-made Boxing Gloves.

(USED BY THE PROFESSION THROUGHOUT THE UNITED STATES)



**All made of the Finest Curled Hair, and made entirely by Hand.**

I have long given especial attention to the manufacture of these Gloves, and claim them to be unequaled by any in the market. They are made entirely by hand, out of the strongest and softest materials, and combine every requisite of First-class Boxing Gloves. During the long period in which I have manufactured and sold these Gloves I have never heard or received a single complaint against them, proof positive of the universal satisfaction they have given by their durability and finish.

On the opposite page will be found my prices for these Gloves, which, I think, are much lower than they can be purchased elsewhere.

# MISCELLANEOUS.

## The Weston Pedestrian Suit.

This excellent Suit, as will be seen by reference to Illustration No. 108, and which is quite similar to the one worn by the great Weston during his recent successful efforts, is made entirely of first-class material, and will be supplied to Pedestrians at the following moderate prices:

Shirt (Worsted), $5; Breeches (Black Velvet), $10 ..... $13 50
Cap and Belt, 1$ each ..... 2 00
Shoes, $3.50; Stockings, $1 per pair ..... 4 50

## Standard Dancing Clogs.

The attention of Clog Dancers is respectfully invited to the following line of Standard Dancing Clogs, all of which are made from the most approved designs:

Red, Blue, or Black Morocco, Fancy Stitched ..... $2 00
The same Clogs, extra quality ..... 2 50
" " with Tips ..... 3 50
" Trimmed all around, very fancy ..... 6 00

Superior Rattles, per set, 25 cents. Brass Heels, 50 cents.

Also, Clogs made to order for the use of Dyers and Bleachers, Tanners, Brewers, Slaughtermen, and others engaged in wet work.

Those at a distance wishing to purchase Clogs must send the measurement of their feet, which is very easily done by placing the bare foot on a sheet of paper, and passing a lead pencil entirely around it. Then get a narrow strip of paper, and measure round the ball and instep of the foot exactly, and mark the parts with the pencil across the strip of paper. Let your strip be a foot long, and three-quarters of an inch wide.

## Sportsmen's Requisites.

Below will be found several articles of interest to Sportsmen, which were inadvertently omitted from the proper department, or were presented to my attention too late for classification.

### Boudren's Adjustable Dash Lamp.

WITH LOCOMOTIVE REFLECTOR, FOR NIGHT HUNTING, ETC.

The attention of hunters is called to this superior Lamp for Jack shooting deer at night, being neither affected by wind, rain, or jolting, and always giving a brilliant and powerful light. It burns kerosene without a chimney. Sent to any address for $6.

### Good's Oil-Tanned Moccasins.

These Moccasins are well adapted for the necessities of Sportsmen, and no hunter should be without them, as they combine all the advantages of a boot and shoe. They are comfortable, durable, and convenient, being easily taken off and put on, and not injured by wet or dry weather. Boot Moccasins, $5 per pair; Shoe Pac or Indian, $3.

### Excelsior Canvas Tents,

For hunting, camping out, fishing, bathing, base-ball, cricket, etc., kept constantly on hand or made to order of any design at prices varying from $10 to 50.

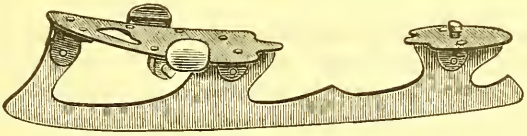
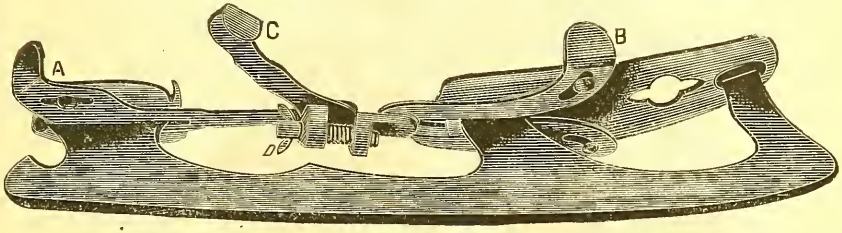
# Standard Patent Club and Rink Skates.



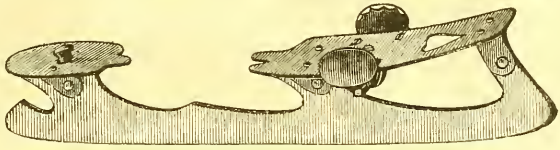
**Winslow's New York Club Skate.**

This Skate has long been favorably regarded by the Skaters of America, possessing as it does, peculiar merits, which cannot fail to make it as popular in the future as it has been in the past. It is manufactured in two qualities at the following prices: Blued, per pair, $3.50. Superior Nickel Plated, per pair, $5.00.



**The Patent American Club Skate.**

This popular Self-Adjusting Skate is the latest patented, I believe, and will give satisfaction to all who use it, as the manufacturers claim that their sales are increasing annually. It is simple and durable in construction, requires no Heel Plates, and is readily fitted to the boot by turning the screw; and being locked and unlocked by the motion of the lever, it forms a firm and reliable fastening. Made in three qualities: Blued, per pair, $4.50. Polished, $6.50. Nickel Plated, $8.00.



**Barney & Berry's Club Skate.**

The superior and beautiful manner in which Barney & Berry's Club and Rink Skates are always manufactured, have contributed to make them universally and deservedly popular. The "Barney & Berry Club" is an economical and splendid Skate, made from Imported Steel, with Blued Foot and Heel Plates, and Extra Tempered Blades; while the "Barney & Berry Rink," though made from the same metal, is of a more elaborate and beautiful character, plated, and finished in the very best manner. Club Skate, Blued, $3.50. Rink, Polished, $8.50. Plated and Highly Finished, $10.
